

Job Title:	Student Insight Team Member
Unit/School:	Quality Enhancement Directorate
Grade:	1A
HERA:	QED66

Core purpose of role

The Student Insight Team primarily exists to assist the Quality Enhancement Directorate with work that requires student involvement, or which would significantly benefit from having students involved. The kind of work carried out by the Student Insight Team is typically related to quality assurance processes, such as reading and reviewing information about how Cardiff Met's degree programmes are structured. The role could also include hosting focus groups, gathering student feedback, or assisting the Student Partnership Team with analysis of this feedback.

Other tasks do arise sporadically and can be working directly with the QED team or other university departments. These might involve anything from graphic design to re-organising digital files to speaking at QED events. You can opt into these kinds of tasks when you feel your skill set is suitable.

Key responsibilities and contributions

As this role is one that is casual and can encompass various tasks, a full set of specific role responsibilities and contributions is not possible. However, we would expect all members of the team to:

- Be an active and flexible member of staff within the Quality Enhancement Directorate.
- Be willing to attend staff development and training sessions as required.
- Assist with a wide range of projects according to need and/or your skill set.
- Deliver and/or support the delivery of sessions which engage with students directly, behaving in a supportive and enthusiastic manner.
- Communicate effectively and appropriately with students and staff, to ensure that work is understood and delivered on time.
- To review quality assurance documentation and provide feedback to relevant staff members in a timely manner.

- Uphold confidentiality, where necessary, in all processes you are involved in.
- Work flexibly across both campuses, or from home as required.
